

Among various items, the ISO fully approved seven (7) new pieces of SCA Literature. They are:

--a *Preface* for a new edition of *SCA: A Program of Recovery*.

--a *Foreword* (introduction) written by Dr. Alexandra Katehakis, noted author, sex therapist, and speaker (Malibu CA), the ISO's Outside Director.

--a poem by one of our members.

--commentaries on *The Characteristics Most of Us Seem to Have in Common*, written by members of ISO's Recovery Book sub-committee.

--a short piece: *The Tool of Abstinence*, one of the chapters in the new Recovery Book.

--a short piece: *Recovery from Sexual Anorexia*, one of the chapters in the new Recovery Book.

--15 stories of individual recovery, submitted by SCA members and lightly edited by the Recovery Book sub-committee.

ISO also **fully approved** the Third Edition of *Sexual Compulsives Anonymous (SCA) A Program of Recovery*, sometimes referred to as SCA's "Big Book." The new edition is a 139,000-word work that will supersede the Second edition of the SCA Blue Book (30,000 words). In addition to the newly approved literature, the new Recovery book contains most of SCA's existing literature, all revised and updated, plus 28 individual recovery stories. The ISO will do a fiduciary review (formatting, punctuation, spelling, etc....) before producing an e-book and a printed version.

As recommended by last October's special ISO conference, ISO voted to amend the first phrase of the opening sentence in SCA Statement of Purpose to read: "SCA is a fellowship of people who share their experience, strength and hope, etc....". The word *people* will replace the existing *men and women*.
